

Dear Customer,

We act as a distributor for the following products, manufactured by

Grease:	AP100	AP101	H	L	M	N	T
Oils:	AP201	AP303	J	K			
Wax:	W	W40					
Other:	Q Compound						

The manufacturer has declared that the above products are not classified as:

- hazardous under the GHS system (as adopted under REACH regulation EC 1907/2006 and CLP regulation (EC) no 1271/2008)
- persistent, bioaccumulative and toxic, PBT or very persistent, very bioaccumulative vPvB
- identified a SVHC and included on the Candidate List (REACH)

Nor do they contain:

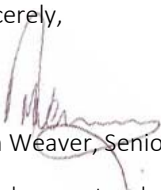

- a substance posing human health or environmental hazards in an individual concentration of $\geq 1\%$ by weight for mixtures that are solid or liquids or $\geq 0.2\%$ by volume for gaseous mixtures, nor
- a substance that is carcinogenic category 2 or toxic to reproduction category 1A, 1B and 2; skin sensitiser category 1; respiratory sensitiser category 1; has effects on or via lactation or is PBT or vPvB in an individual concentration of $\geq 0.1\%$ by weight for mixtures that are solid or liquids, nor
- a substance on the 'Candidate List' in an individual concentration of $\geq 0.1\%$ by weight for non-gaseous mixtures, nor
- a substance for which there are Europe-wide workplace exposure limits.

We do not publish safety data sheets for these products as the manufacturer has confirmed that they are not legally required under normal use, and we continue to work closely with them to monitor and respond to anything which may impact this.

Further information is available via the manufacturer's website: www.apiezon.com or contact your local representative.

Although there are no special measures required under normal use, users should continue to follow local safety protocols and comply with local legislation with respect to storage, use and disposal of products.

Sincerely,

Dan Weaver, Senior Product Manager (Global Service)
